Attached is the SOP for TCLP used by ALS-Houston and a brief comparison of using the ICP-MS method versus the ICP-AES method.

Also, due to the multiple weather delays, we have pushed the start of remediation activities back to commence the morning of Thursday, March 28 at approximately 7:30 to 8:00 am.

Please let me know if you have any questions.

Thank you -  
Vanessa Coleman

Hey Vanessa,

Just wondering how your contractors were doing on the laboratory protocol for TCLP analysis. I was hoping to let our Houston lab folks take a quick look before samples go out later this week.

Rick
